## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of species d)figures 16-23A and 24-27, claims 1-33 in Paper filed April 4, 2005 is acknowledged. The traversal is on the ground(s) that the species A-H designated in the restriction requirement should have been combined as one species as they are so closely related that combining them would have not provided an undue burden to consider them together. This is not found persuasive because applicant's disclosure identifies mutually exclusive and distinct species (as mentioned in the election of species), and the search for 8 different species would have been a burden for the examiner. Where inventions are related as disclosed but are distinct as claimed, restriction may be proper (MPEP 806).

The requirement is still deemed proper and is therefore made FINAL.

2. Please note that claims 18, 29, and 31 have been included in the since claims 1 and 27 are generic, and allowable.

### ***Drawings***

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the plurality of shields as set forth in claim 14, and the probe guide as set forth in claim 26 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

Art Unit: 3763

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- There is no antecedent basis for "the arm".

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claim 32 is rejected under 35 U.S.C. 102(b) as being anticipated by Sircom et al (US 5,322,517).

Sircom discloses (figs. 1-4) a needle hub 4, a shield 9, and a depth stop device 5.

***Allowable Subject Matter***

8. Claims 1-4, 6-31, and 33 allowable over the prior art of record.

Art Unit: 3763

9. Claim 5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

**Conclusion**

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 Form.
